Site Visit Strategy

SA VENTURES

1. Strong Opening

Create a positive first impression. Build rapport, understand expectations again, and set the tone of the visit.

2. Show Benefits, Not Just Features

Don't just say "2 BHK, 750 sq. ft." Explain how it improves lifestyle, comfort, rental value, or future appreciation.

3. Handle Objections Smartly

Listen carefully. Don't argue. Clarify doubts about price, location, builder, or loan with confidence and facts.

4. Try for Token

If the client shows interest, confidently ask for a token amount to block the unit. Create urgency (availability, price change, demand).

Follow-Up Strategy

Fix Next Call Date

Always schedule the next call or meeting before ending the current conversation to maintain momentum.

Maintain CRM

Update the CRM regularly with client interactions, notes, and follow-up actions for better tracking.

Reminder Before Visit

Send a reminder message or call before the scheduled meeting to confirm availability and show professionalism.

Consistency = Closing

Regular and disciplined follow-ups build trust and significantly increase the chances of closing the deal.

Closing Formula

Requirement Match

Ensure the service or product clearly aligns with the client's needs and expectations.

+

Budget Match

Offer solutions that fit within the client's budget while delivering maximum value.

+

Proper Follow-Up

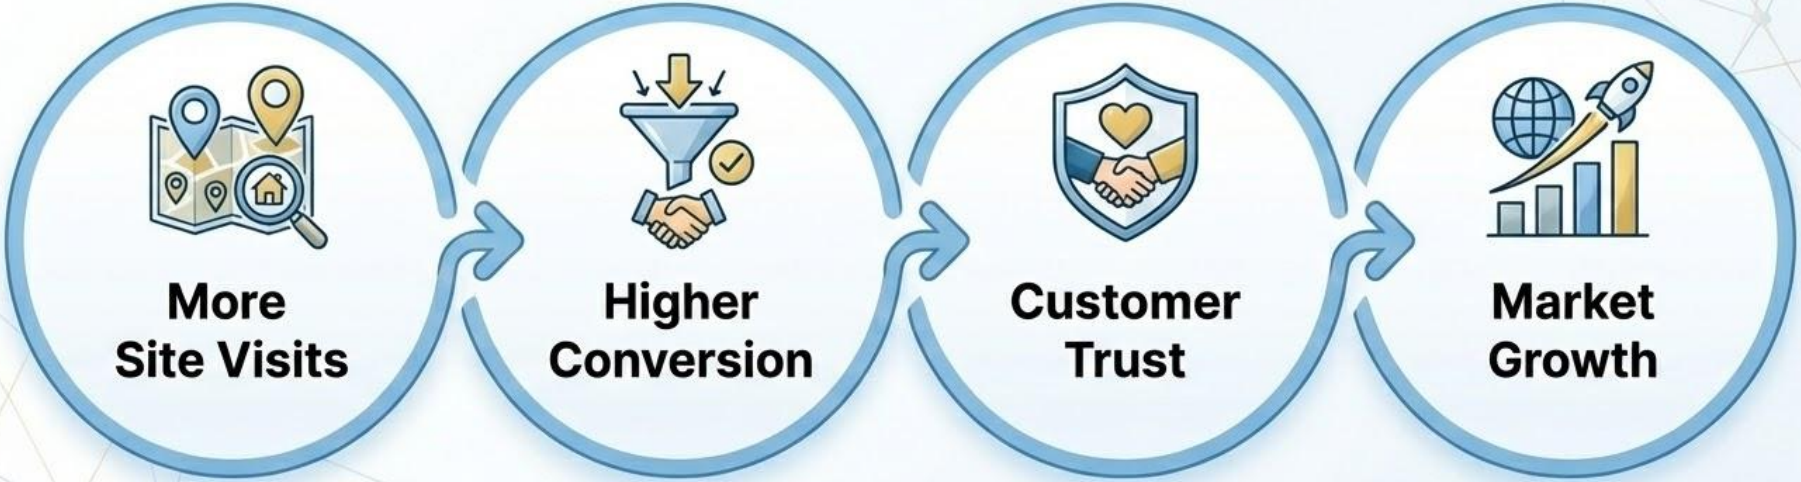
Consistent and timely follow-ups help maintain interest and move the conversation toward a decision.

=

= Booking

When the requirement, budget, and follow-up align, it naturally leads to successful bookings.

Our Goal



More Site Visits
Higher Conversion
Customer Trust
Market Growth

Office Rules & Policies

Grooming

- Maintain **professional attire and neat appearance**.
- Carry **company ID card and maintain proper conduct with clients**.
- Maintain **professional communication and positive attitude**.

Attendance

- Follow **office working hours and punctuality**.
- Mark **daily attendance as per company system**.
- Inform the reporting manager **in advance for leave or late arrival**.

Workplace Discipline

- Maintain **professional behavior within the office and at site visits**.
- Respect **team members and company policies**.
- Focus on **productivity, accountability, and client satisfaction**.
